Radiological sampling to be performed at 160 E. Illinois St., Chicago, Illinois

Dear Ms. Simon:

As per our clients request, Benchmark is hereby informing the Agency that we will be performing soil borings, downhole logging and sampling of soils for radionuclides at the above referenced site on Wednesday October 18, 2000, at 9:00 am. Borings/sampling will be performed at four locations, with borings being completed through the basement floor slab, to a depth of four to eight feet below the floor grade. You have been invited to observe the operations and obtain split samples if required.

Please respond in writing by Tuesday October 17, 2000. If you have any questions, please call me at 800-400-5811.

Sincerely,

Walter Karla, CHMM
